I Do (Round Two)

How many notes how many words
Have sung about love that's already been heard
A different poem with the same old hurt
I want you to cry for all your worth

Throw away the last vow
This love is new
Say with me now
I do

Say never again you went through this once
Our old mistakes are over and done
This promise I make isn't offered too young
We're smarter with age and with real love

Throw away the last vow
This one is new
Stand here with me now
And say I do

I wanna spend my life with you
Just say I do
I wanna spend my life with you
Just say I do
You know its true
I do

Throw away the last vow
Our love is new
Throw away the last vow
I'll spend my life with you
Throw away the last vow
This loves brand new
Throw away the last vow
This time we know its true
Throw away the last vow
This loves brand new
Throw away the last vow
This time we know it's true
I do
